

PRACTICAL USER GUIDE

GSF Hub End-User Guide

Navigate the platform, create an account, learn, find resources, use data, and join the community.

Guide detail	Description
Audience	Visitors, registered members, learners, partners, and expert-roster applicants.
Scope	Public navigation plus signed-in member workflows. WordPress administration is outside this guide.
Version date	September 11, 2026

How to use this guide

Follow the numbered procedures in order. Screenshots show the current local test build; labels may move slightly after WordPress, theme, or plugin updates.

Contents

1. Quick start and navigation
2. Create an account, sign in, and manage your profile
3. Use Learn and earn a certificate
4. Find resources and case studies
5. Explore the Data Centre and Expert Directory
6. Join forum discussions
7. Subscribe to updates
8. Troubleshooting and quick reference

1. Quick start and navigation

The GSF Hub brings learning, practical tools, project stories, monitoring data, experts, and peer exchange into one platform. Most public content can be browsed without an account; learning enrollment, profile changes, and forum participation require sign-in.

Website: [GSF Hub](#)

Audience: Visitors, members, learners, partners, and expert-roster applicants.

Figure 1. GSF Hub homepage and primary navigation on the local test site.

Use the main menu

Menu	What you can do
Learn	Browse courses, enroll, launch course content, view progress, submit feedback, and access certificates.
Resources	Search and filter templates, toolkits, reports, videos, and field-ready materials.
Case Studies	Read outcome stories and filter them by type, focus area, and country or region.
Data Centre	View project, participation, geographic, indicator, and Ecoequity reporting.
Directory	Find practitioners and partner organizations by name, profile text, and country.
Forum	Browse community spaces; sign in to create topics, reply, and subscribe.

Search from the homepage

1. Open the homepage.
2. Enter a keyword in Search the site.
3. Select Search, then open the most relevant result.

Tip

Use a short, specific phrase such as gender toolkit, Saint Lucia, or project management. Use each section's filters when you already know the content type.

Use Ask the Hub

The homepage includes a **Resource Assistant** headed “What could the GSF Hub help you find?”

1. Enter your role, goal, or question in **Ask the GSF Hub**.
2. Select **Ask the Hub**.

The screenshot shows the 'RESOURCE ASSISTANT' section on the GSF Hub homepage. It features a heading 'What could the GSF Hub help you find?' followed by a subtext: 'Describe your role, goal, or challenge. We will map relevant learning, resources, evidence, people, and discussions.' Below this is a search input field with a magnifying glass icon and the placeholder text 'Describe your role, goal, or challenge...'. To the right of the input field is a dark blue button labeled 'Ask the Hub'. At the bottom, there is a section titled 'Try an example:' followed by four buttons: 'Support my NCTF', 'Plan an inclusive project', 'Find training and tools', and 'Report programme results'.

3. Review the returned guidance and open the relevant destinations.
4. Check the linked resources and their dates before relying on them.

You can also start with the homepage examples, including **Support my NCTF**, **Plan an inclusive project**, **Find training and tools**, and **Report programme results**.

Use general descriptions. Do not enter passwords, confidential project details, or sensitive personal information.

2. Create an account, sign in, and manage your profile

Create one account and use it for learning, forum participation, expert-roster activity, and profile settings.

Create an account

The screenshot shows the GSF Hub website header with logos for Canada, GSF Hub, and the Caribbean Resilience Fund. The navigation menu includes Learn, Resources, Case Studies, Data Centre, Directory, and Forum. A language selector shows 'EN' and a 'Sign in' button is present. The main content area features a 'CREATE ACCOUNT' section with a large 'Register' heading and four input fields: Username, First Name, Last Name, and E-mail Address.

Figure 2. Member registration form.

1. Select Sign in in the site header, then select Register.
2. Enter a username, first name, last name, email address, and a strong password.
3. Complete the optional profile information: gender, age, organization type, country, and stakeholder groups.
4. Select Register. Follow any activation or approval instructions sent by email.
5. Return to Sign in and use your username or email address and password.

Privacy reminder

Only provide profile and stakeholder information you are comfortable storing in your GSF Hub account. Review Privacy settings from your Account page after signing in.

Sign in or reset your password

The screenshot shows the 'MEMBER ACCESS' section of the GSF Hub website. It features a 'Sign in' heading and two input fields: 'Username or E-mail' and 'Password'. Below the password field is a 'Sign in' button, a 'Stay logged in' checkbox, and a 'Register' button. A link for 'Forgot your password?' is located at the bottom of the sign-in area. The top navigation bar includes links for 'Learn', 'Resources', 'Case Studies', 'Data Centre', 'Directory', and 'Forum'. The language is set to 'EN' and there is a 'Sign in' button in the top right corner.

Figure 3. Member sign-in page, including registration and password-reset links.

- Use Forgot your password? if you cannot sign in.
- Use Stay logged in only on a private device.
- If a protected page sent you to Sign in, the site should return you to that page after successful login.

Use your Account page

The screenshot shows the 'MEMBER ACCOUNT' section of the GSF Hub website. It features a 'Choose Your Next Step' heading and a sub-heading 'QUICK ACCESS'. Below this, there are three cards: 'Expert Roster', 'Learn', and 'Browse Expert Directory'. Each card has an icon and a brief description of the service. The top navigation bar includes links for 'Learn', 'Resources', 'Case Studies', 'Data Centre', 'Directory', and 'Forum'. The language is set to 'EN' and there is a 'Log out' button in the top right corner.

Figure 4. Signed-in member Account page and Quick Access cards.

- Update your first name, last name, or email address under Account.
- Use Change Password to replace your password.
- Use Privacy to control directory visibility where available.
- Use the Quick Access cards to open Learn, the Expert Roster portal, or the Expert Directory.

Do not share accounts

Course progress, feedback, certificates, subscriptions, and forum activity are tied to the signed-in account.

3. Use Learn and earn a certificate

The Learn area combines a course catalogue with a personal progress dashboard.

Figure 5. Signed-in Learn catalogue with Enroll buttons and the learner dashboard.

Enroll and start a course

1. Open Learn and choose a course title.
2. Select Enroll. The page changes from Enroll to Status: Enrolled.
3. Open or continue the embedded course content.
4. Complete every required screen, activity, and assessment. Course progress is saved to your account.
5. Return to Learn to review your course status.

Figure 6. Enrolled course page showing course status and the feedback step.

Complete feedback and access the certificate

- The course package must report Completed or Passed before feedback becomes available.
- After completion, select Submit feedback survey and submit the required responses.
- The certificate is issued only after verified course completion and feedback.
- Use Print or Save PDF on the certificate card to retain a copy.

If progress does not update

Keep the course page open while studying, allow the final completion screen to finish saving, then refresh the course page. If the problem remains, record the course name, date, and last completed section before contacting support.

4. Find resources and case studies

Search the Resource Library

Figure 7. Resource Library search and filters.

1. Open Resources.
2. Enter a keyword, or choose a resource type, topic, and country or region.
3. Select Apply filters.
4. Open a resource card to review its description and download or external link.
5. Clear the fields or use Reset when you want to start a new search.

Browse case studies

Figure 8. Case Studies page with search and filter controls.

- Search by title or keyword.
- Narrow results by case study type, focus area, and country or region.
- Open a result to review the context, actions, outcomes, partners, and reusable lessons.

5. Explore the Data Centre and Expert Directory

Read the Data Centre

Figure 9. Public Data Centre storytelling dashboard.

- Use summary cards for the current number of projects, territories, participants, and course completions.
- Scroll through participation, geographic, project-status, indicator, and Ecoequity sections.
- Treat dashboard figures as the current published view; contact GSF staff if a figure needs clarification.

Find an expert

Figure 10. Expert Directory search and country filter.

1. Open Directory.
2. Search by name, organization, role, or profile text.
3. Choose a country when you need a regional match.
4. Open a profile to review public information and areas of expertise.

6. Join forum discussions

Figure 11. Signed-in Forum page with community spaces and activity counts.

Create a topic

1. Sign in and open Forum.
2. Choose the forum space that best matches your question or update.
3. Scroll to Create New Topic.
4. Enter a clear title, write the topic, and add relevant tags.
5. Optionally select Notify me of follow-up replies via email.
6. Select Submit once. Your topic appears in that forum.

Figure 12. New-topic form in a community forum.

Reply and subscribe

- Open a topic and use the reply form to contribute.
- Use Subscribe on a forum or topic when you want email updates.
- Keep posts relevant, respectful, and free of confidential personal or project information.

Forum etiquette

Use descriptive titles, acknowledge sources, and avoid posting the same question in multiple spaces.

7. Subscribe to updates

The Mailing List form appears in the site footer.

1. Scroll to Mailing List.
2. Enter your email address.
3. Select Subscribe.
4. Complete any confirmation step sent by email.

Subscription is separate from membership

A GSF Hub account does not automatically subscribe you to newsletters, and a newsletter subscription does not create a member account.

8. Troubleshooting and quick reference

Problem	What to try
Cannot sign in	Check username or email, use Forgot your password?, and check junk mail for the reset message.
No course content	Confirm you are signed in and enrolled, then refresh the course page.
Course still in progress	Finish the course's final screen and allow it to save before refreshing.
Feedback is locked	The course must first report Completed or Passed.
No certificate	Complete the course, submit feedback, then refresh and open the certificate card.
No filter results	Clear one or more filters, shorten the keyword, or reset the form.
Cannot post in Forum	Confirm you are signed in and that your account has forum participation access.

Before contacting support

- Record the page or course title and the time the problem occurred.
- Take a screenshot of the visible message without exposing your password.
- Note the browser and device you were using.
